

Oil Filling Instruction

S1. Bottom Filling

Insert the needle into the oil tank with 0.86inch/22mm.

S2. Pull out the Needle

Hold the product to pull out the needle.

S3. Snap-in Plugger

If the concentrate is as liquid as edible oil, please snap in the plugger within 90 seconds.

If the concentrate is thicker than edible oil, please snap in the plugger within 180 seconds.

S4. Final Product

After take off the silicone rubber case, suggest to finish the oil within two weeks.

After filling and capping, suggest to put the product upside down (mouthpiece face down) for storage before sales.
